

Child protection policy

for The Hub at St John's Church, Sutton Road.

Our Aim

The Hub is a place where there are caring and safe relationships between adults and young people. We care about young people's safety and happiness inside and outside The Hub.

We will

Treat everyone with respect.

Listen and respond to young people if they see people behaving in ways they don't like.

Respect young people's physical personal space and only use physical contact when a young person is at risk or in danger.

Youth workers will make sure the other adults they work with behave properly to young people and respect them.
